

*Hi, I'm*

# **Youness FATINE**

## **MY FEELINGS**

This project allowed me to learn more about computers. I have evolved a lot in teamwork. I can now share tasks based on the skills of my teammates. This is how I was able to focus in CSS code of the site

## **WHAT YOU CHANGED IF WE GO BACK TODAY 1**

For me this project is very nice. I have nothing to change, only things to improve.

## **THE IMPROVEMENTS**

This project is verry good but i a improvement so that it becomes better. The furst improvements it's to add a page with detailed information of each product that is in the boxes. Also I would have liked Improve the phone interface. To finish It would be cool to make an interface when you connect.
